

OUR LEADERSHIP TEAM

Metro Business Systems is a homegrown company with national appeal. Metro was founded in Stamford, CT in 1986 by Fairfield County residents Frank Pelli and Ralph Boccuzzi. We made a mark immediately in the tri-state area and expanded across the country by adapting to the ever-evolving technology sphere. Products and trends come and go but, Metro has been at the forefront of offering the latest technology to clients. We are one of the first companies of our kind and have survived many evolutions in this industry. This is made possible by the visionary leadership of Frank, Ralph and other members of the leadership team.

Currently, our two on-site 50,000 square foot tech centers are staffed by a dedicated group of certified engineers and technical support specialists. Several of whom have been with Metro for well over two decades.

Building on our rich 30 year history, Metro continues to set the standard for a personalized IT vendor experience. Our main priority of customer satisfaction is the same now as it was three decades ago. We tailor our business to provide solutions to our client's challenges.

Leadership Team

Frank Pelli, Owner (Appointed, 1986)

Ralph Boccuzzi, Owner (Appointed, 1986)

Stellino Savarino, COO, Corporate Controller (Appointed, 1997)

Mark Schwartz, Director of Corporate Services (Appointed, 1997)

"I love this industry. It will always be relevant and evolutionary in today's world. Therefore, it is Metro's responsibility to adapt, change and grow with the times."

— **Ralph Boccuzzi**

Owner, Metro Business Systems, Inc.
